Product highlights

1.3 Mega Pixels (interpolated)
Your webcam gives you 1.3 Mega Pixels (interpolated) for both video and photo resolution. So, you can use it to take high-quality photos that still look great when printed as larger-sized images.

30 frames per second video
Sit back and enjoy superior viewing with 30 frames per second video. This gives you smoother video images and a better all-round video chatting experience.

3x digital zoom
Zoom in and out to get the perfect framing for any image. You control the zoom entirely via the on-screen interface while you're looking at the image so you can adjust it perfectly.

Automatic face tracking
The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You stay in the centre of the image even if you move during a video conference. It gives you the freedom to express yourself and converse naturally.

Rotating body
Enjoy webcam-freedom with a clever rotating body that lets you aim the camera wherever you want. Just twist the camera in any direction to film anywhere in your room without moving the webcam at all.

Built-in digital microphone
The built-in digital microphone allows you to talk naturally and freely or to add sound to a video clip recording.

Noise reduction
This superb noise reduction technology reduces background noise, and it enhances clarity of speech in both quiet and noisy environments.

Easy set-up and use
Setting-up and using your webcam is easy as 1-2-3. 1. Install software 2. Plug in camera 3. Video call instantly

Compatible with all services
The webcam and its software have been designed with all instant messaging services in mind. Add video to Skype, Windows Live Messenger, Yahoo! Messenger, AOL Instant Messenger and other services.

VLounge software
Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will able to create and send Video mails. This software package gives you all you need to take full advantage of your Philips webcam.

Snapshot button
With just one press of this button, your webcam takes a picture automatically. It's a fun way to share your pictures by adding them to e-mails, webpages or documents.

Mounts securely
The multifunctional stand makes it easy for you to mount the webcam securely on top of any monitor, laptop or desk. This design is especially secure and won't move or fall when you're in the middle of a conversation.
